## About the Institute of Singapore Chartered Accountants

The Institute of Singapore Chartered Accountants (ISCA) is the national accountancy body of Singapore with over 40,000 ISCA members making their stride in businesses across industries in Singapore and around the world. ISCA members can be found in over 40 countries and members based out of Singapore are supported through 12 overseas chapters in 10 countries.

Established in 1963, ISCA is an advocate of the interests of the profession. Complementing its global mindset with Asian insights, ISCA leverages its regional expertise, knowledge, and networks with diverse stakeholders to contribute towards the advancement of the accountancy profession.

ISCA administers the Singapore Chartered Accountant Qualification programme and is the Designated Entity to confer the Chartered Accountant of Singapore – CA (Singapore) – designation.

ISCA is a member of Chartered Accountants Worldwide, a global family that brings together the members of leading institutes to create a community of over 1.8 million Chartered Accountants and students in more than 190 countries.

For more information, visit [www.isca.org.sg](http://www.isca.org.sg)

## The Accounting and Corporate Regulatory Authority

The Accounting and Corporate Regulatory Authority (ACRA) is the regulator of business registration, financial reporting, public accountants, and corporate service providers. We are also responsible for developing the accountancy sector and setting the accounting standards for companies, charities, co-operative societies, and societies in Singapore. ACRA fosters a vibrant and trusted business environment that enables innovation and growth and contribute towards making Singapore the best place for business.

ACRA was formed as a statutory board on 1 April 2004, following the merger of the Registry of Companies and Businesses (RCB) and the Public Accountants' Board (PAB). This merger sought to achieve synergies between the monitoring of corporate compliance with disclosure requirements and the regulation of public accountants performing statutory audits.

On 1 April 2023, ACRA, the Singapore Accountancy Commission (SAC) and the Accounting Standards Council (ASC) merged as one entity, taking on the name, ACRA. The merger aimed to strengthen the effectiveness of regulation, standards-setting, and sector development by harnessing synergies across complementary accountancy-related functions.

For more information, visit: [www.acra.gov.sg](http://www.acra.gov.sg)

## **The Singapore CA Qualification**

The Singapore Chartered Accountant Qualification (SCAQ) is Singapore's national professional accountancy qualification, designed to develop business leaders. It is internationally recognised through Reciprocal Membership Agreements with world-renowned Chartered Accountant (CA) Professional Bodies in Australia, New Zealand, Ireland, Scotland, and the United Kingdom; and provides an Asian perspective.

Completion of SCAQ opens the way to full membership with the Institute of Singapore Chartered Accountants (ISCA) which is required in order to be conferred the Chartered Accountant of Singapore – CA (Singapore) designation.

SCAQ was developed by the Singapore Accountancy Commission (SAC) in 2013. On 1 April 2023, SAC, the Accounting & Corporate Regulatory Authority (ACRA) and the Accounting Standards Council (ASC) merged as one entity, taking on the name ACRA. The merged ACRA is responsible for the growth and development of the accountancy sector and its related fields in Singapore, including SCAQ.

## Introduction

The Study Guide helps Candidates to be better prepared for the Singapore CA Qualification examinations. The Study Guide provides guidance to Candidates on how to use the recommended textbooks.

## Module Assessment

The Foundation Programme is assessed by way of centralised examinations. These standard national examinations are applicable to all Candidates. Each module will be assessed by way of a 2 hour and 30 minutes restricted open-book Multiple-Choice Question (MCQ) examination. There will be fifty questions, including standalone and short case-based questions.

## Module Objective

The Principles of Financial Reporting module provides Candidates with knowledge of the Conceptual Framework and the Singapore Financial Reporting Standards (International) (SFRS(I)) to produce a complete set of financial statements for single entities, including basic notes to the accounts. Candidates will also be able to explain and advise on the application of the SFRS(I)s, demonstrating appropriate professional judgment. The Principles of Financial Reporting module provides foundation accounting knowledge for the Advanced Financial Reporting module and the Assurance module.

## Assumed Knowledge and Pre-requisites

It is assumed that Candidates have acquired a strong knowledge base in relation to accounting from their prior tertiary studies. Outlined below is a summary of the assumed knowledge for the Principles of Financial Reporting module:

- (a) Double-entry bookkeeping (debits and credits);
- (b) The elements of the financial statements (Introduction to Chapter 4 of the Conceptual Framework - assets, liabilities, revenue, expenses, and owners' equity);
- (c) Fundamental accounting equations (e.g. Assets - Liabilities = Owners' Equity);
- (d) Accounting cycle and transaction cycles (debtors, inventory, cash, creditors, etc.);
- (e) Cash versus accruals;
- (f) Source documents;
- (g) General ledger and subsidiary ledgers, including Accounting Information Systems (computerised and manual);
- (h) Preparing journal entries;
- (i) Posting journal entries;
- (j) Balance day adjustments and closing entries;
- (k) Reconciliations;

- (l) Trial balance;
- (m) Specific accounting entries:
  - Inventory systems (perpetual and periodic)
  - Accounting for Goods and Services Tax (basic concepts and entries only)
  - Depreciation and amortisation
  - Impairment of debtors
  - Discounts and credit terms
- (n) How the accounting cycle culminates in the preparation of financial statements; and
- (o) Preparation of a full set of financial statements for a single accounting entity, excluding the notes to the accounts.

### Recommended Textbooks

There is no prescribed learning materials for each of the Foundation Programme modules. Candidates should make use of the Recommended Textbooks to deepen their knowledge and understanding of the topics and learning outcomes. This study guide maps out the module Learning Outcomes to the various chapters and sections found within the recommended Textbooks that you would find useful and relevant in your studies and work. The Recommended Textbook are as follows:

No	Textbook	Authors	Publisher	Edition
1.	Financial Accounting (International)	J. David Spiceland, Wayne Thomas, Don Herrmann	McGraw-Hill	7 <sup>th</sup> Edition
2.	Intermediate Accounting (IFRS® Standards Edition)	David Spiceland, Wayne B. Thomas, Mark W. Nelson, Pearl Tan, Bernardine Low and Kin Yew Low	McGraw-Hill	3 <sup>rd</sup> Edition

As the textbooks are not customised for the Singapore CA Qualification, there are learning outcomes not covered by the text books. The Study Guide has aligned such learning outcomes to publicly available references. Candidates may refer to other sources to supplement your learning.

In addition to the above references, Candidates should make use of other resources like the Examiners' Guide published on the SCAQ website and Essential Reading listed in this Study Guide.

## Studying for the Singapore CA Qualification (Foundation)

Candidates may choose the following mode of study for the Singapore CA Qualification (Foundation):

- (a) Attend tuition courses with a Registered Learning Organisation – Foundation Programme (RLO-FP); or
- (b) Self-study.

**For more information, visit:**

[Home | The E-Learning Portal for Singapore CA Qualification \(SCAQ\) Candidates](#)

Attending the preparatory or revision classes conducted by the RLO-FPs may help you to better prepare for the Singapore CA Qualification (Foundation) examinations.

The list of RLO-FPs is available on the SCAQ website. For more details regarding course fees, schedules, and duration, please visit the respective RLO-FP websites.

### Using the Practice Papers with Multiple-Choice Question (MCQ) format

Note that from June 2026, all Foundation Programme modules will adopt an objective testing assessment format using MCQ exams, providing a more consistent and accessible assessment experience.

The program is being refreshed to equip candidates with future-ready skills and knowledge, align with global professional standards and to ensure consistency in coverage

### Using the Study Guide and the Recommended Textbooks

Utilising the Study Guide and the Recommended Textbooks together for studying the Singapore CA Qualification will:

- help you navigate and achieve the module learning outcomes to obtain insightful commentary and explanatory details of the module topic;
- increase your comprehension and organise your understanding through the module topic and practice with application-based examples; and
- prepare you for a successful exam, while providing the knowledge you can put into action at work right away.

### Planning Your Study Programme

Each semester is approximately 13 weeks long. You should establish your own detailed study plan that fits in with your work and other commitments. There are two distinct periods during the semester that you should take note of:

- i) gaining knowledge and developing your application skills and
- ii) revising for the examination, which includes honing your application skills.

A sample study plan might be to divide the semester into two with:

- The first ten weeks spent gaining knowledge and developing your application skills; and

- The final three weeks spent revising for the examination and doing practice exam questions.

Using this sample study plan, you would then divide the number of topics by ten and plan to work through each topic accordingly. As you complete each topic, you should also attempt the corresponding practice questions from the Textbooks.

This approach will help you establish whether you have understood the concepts thoroughly and reinforces the knowledge and skills gained.

Once you have read all the relevant sections from the Recommended Textbooks, as well as the other suggested reading materials and worked through the topic-specific questions from the Textbooks, you should then switch to intense revision mode and start preparing yourself for the examination.

The past year examination questions also help you get prepared for your examination. You should attempt each question as if it were the real examination, limiting the time allowed to complete, and being honest with yourself when you compare your answer to the answer suggested. As part of your revision, you should refer to the Recommended Textbooks and other essential reading materials to ensure that you have fully understood the concepts and noted any exceptions.

In terms of time invested, it is recommended that you spend 100 hours on gaining knowledge and developing your application skills (approximately 10 hours a week for the first 10 weeks of the semester). The last three weeks should be devoted to intensive revision and exam practice. At a minimum, you should plan to invest at least 12 hours each week in the three weeks leading up to the examination.

## PRINCIPLES OF FINANCIAL REPORTING

Financial Reporting Framework	4 Hrs	7%
Recognition of the elements of Financial Statements	32 Hrs	53%
Preparation of Financial Statements for a Single Entity	10 Hrs	17%
Other Standards on Presentation and Disclosure of Financial Statements	14 Hrs	23%

\* Estimated study hours only serve as a guide for the Candidates.

## THE MODULE AT A GLANCE

- A** Explain the objectives of Financial Reporting, the standard setting process, as well as the need for and apply the components of the Conceptual Framework.
- B** Describe and apply the appropriate measurement and recognition criteria for the elements of the financial statements (Assets and Liabilities), as required by the Singapore Financial Reporting Standards and related pronouncements and interpretations.
- C** Describe and apply the appropriate measurement and recognition criteria for the elements of the financial statements (Revenue, Expenses, Equity and Other Comprehensive Income), as required by the Singapore Financial Reporting Standards and related pronouncements and interpretations.
- D** Prepare a complete set of financial statements, including basic notes to the accounts, for a retail entity, a service entity, and a manufacturing entity.
- E** Demonstrate the appropriate presentation and disclosure of accounting policies, changes in estimates and errors, and events after the reporting date.

## ESSENTIAL READING

Preface to the Conceptual Framework

The Conceptual Framework for Financial Reporting

SFRS(I) 1-1 *Presentation of Financial Statements*

Appropriate sections from specific SFRS(I)

The financial press in relation to emerging trends and current issues

## SPECIFIC EXCLUSIONS

The following Singapore Financial Reporting Standards (International) are excluded from this module, as these topics are covered as part of the Advanced Financial Reporting module.

<b>SFRS(I) 1- 24</b>	Related party disclosures
<b>SFRS(I) 2</b>	Share-based payment
<b>Various</b>	All SFRSs relating to group accounting

The following Singapore Financial Reporting Standards are excluded from the Foundation Programme.

<b>SFRS(I) 1-20</b>	Accounting for government grants and disclosure of government assistance
<b>SFRS(I) 1-26</b>	Accounting and reporting by retirement benefit plans
<b>SFRS(I) 1-29</b>	Financial reporting in hyperinflationary economies
<b>SFRS(I) 1-33</b>	Earnings per share
<b>SFRS(I) 1-34</b>	Interim financial reporting
<b>SFRS(I) 1-41</b>	Agriculture
<b>SFRS(I) 4</b>	Insurance contracts
<b>SFRS(I) 6</b>	Exploration for and evaluation of mineral resources
<b>SFRS(I) 8</b>	Operating segments

## Module Syllabus

### Cognitive Levels (CL)

This document includes learning outcomes which Candidates are expected to achieve. Each learning outcome is identified with a cognitive level ranging from 1 to 3. The cognitive levels are described below:

#### Cognitive level 1

An ability to communicate sound knowledge and insight in relation to emerging trends, current issues and regulatory changes, with some practical application.

#### Cognitive level 2

An ability to analyse and apply knowledge to moderately complex scenarios that a Candidate would be likely to encounter in the workplace to derive the best possible outcome.

#### Cognitive level 3

An ability to demonstrate an elevated level of application of knowledge, as well as synthesise and evaluate information in more complex scenarios in order to arrive at value-added solutions.

This cognitive level gives an indication of the intellectual depth which Candidates are expected to achieve.

The technical modules in the Professional Programme are designed at postgraduate level and build on knowledge, skills and values achieved during the prior tertiary studies. The technical modules are designed to develop higher order skills of application, analysis, synthesis and evaluation. For this reason, there are very few learning outcomes with cognitive level 1.

### Core and non-core learning outcomes

In addition to the CL, each learning outcome is defined as core or non-core to distinguish between fundamental or supplemental knowledge and skills prescribed in this module.

#### Core learning outcomes

These are essential learning outcomes which Candidates are expected to achieve in order to gain competency in the described module objective.

#### Non-core learning outcomes

These are learning outcomes which supplement the core learning outcomes that will equip Candidates with a holistic understanding of the module.

56	Apply the rules for recording and reporting foreign currency transactions for a single entity, other than for hedging transactions.	3	C	—	—	

\* **Basic Financial instruments include:**

- Cash;
- Debt instruments (such as an account, note, or loan receivable or payable) that meet certain conditions (in particular, returns to the holder are either fixed or are variable on the basis of a single referenced quoted or observable interest rate);
- Commitments to receive a loan that cannot be settled net in cash and the loan is expected to meet the same conditions as other basic debt instruments; and
- Investments in non-convertible preference shares and non-puttable ordinary shares or preference shares.

## Appendix A - Common verbs used by the Examiners

Verb	Description
<b>Account (for) / Bring to account</b>	<b>Account</b> requires you to show how to record an element in the financial statements appropriately. This might be by means of a journal entry, T-account, or an extract from the financial statements. Remember, a journal or a T-account is only complete if it shows the date of the entry, the correct accounts, the correct amounts, and has a description (narration) – easy marks are often thrown away through carelessness. <b>Bring to account</b> requires you to include all components, say itemise all revenue that should be <b>recognised</b> for income tax purposes.
<b>Advise / Give advice</b>	As a Professional Accountant, your work will invariably require you to form an opinion about the most appropriate course of action, or offer alternative courses of action depending upon the situation. This type of question requires you to give specific guidance to an individual or a group (e.g. a taxpayer, audit client, management, etc.), so your answer must provide specific information or make a <b>recommendation</b> tailored to the individual or group and <b>justify</b> your position.
<b>Analyse</b>	<b>Identify</b> the key components, look for similarities and differences, look for patterns or outliers, and weight up the issues. If there is numerical data, you might need to provide a range of answers depending on how you substitute the data into your model. Make sure you <b>state</b> any implications of your answer and any assumptions that you make.
<b>Apply</b>	This instruction requires you to relate your answer back to a specific document/s or set of facts. Alternatively, you may be required to use a specific formula, model, or process. For instance, “ <b>Apply</b> the relevant Singapore Financial Accounting Standard to ...”. Another example would be “ <b>Apply</b> the 3-year and 2-year concessional rules for determining tax residence”. <b>Apply</b> and <b>With reference to</b> are similar.
<b>Appraise</b>	Make a judgment about the value, quality, outcomes, results, or size. Often there will be a qualifier in the instruction, which will tell you exactly what to <b>appraise</b> . For instance, “ <b>Appraise</b> Company X’s <u>credit worthiness</u> ...”. Professional judgment and scepticism (a questioning mind) are called for when making an <b>appraisal</b> . <b>Appraise</b> and <b>Assess</b> are interchangeable.
<b>Arrange</b>	Put into the correct order or sequence. Sometimes <b>arrange</b> will require you to make a judgment about which items or factors should be given priority or the order of importance ( <b>Rank</b> or <b>Prioritise</b> ). For instance, when considering the severity and/or frequency of risks, it is possible to prioritise (or rank) the risks according to whether they have a low, medium, or high probability of occurring and appropriate resources can be deployed efficiently.
<b>Assess</b>	Make a judgment about the value, quality, outcomes, results, or size. Often there will be a qualifier in the instruction, which will tell you exactly what to <b>assess</b> . For instance, “ <b>Assess</b> the <u>adequacy</u> of the disclosures in the financial statements relating to ...”. Professional judgment and scepticism (a questioning mind) are called for when making an <b>assessment</b> . <b>Appraise</b> and <b>Assess</b> are interchangeable.

Verb	Description
<b>Bullet points</b>	Unless specifically asked for, <u>only</u> use <b>bullet points</b> in your answer as an <u>absolute last resort</u> if you are running out of time. A quarter of a mark is better than zero.
<b>Calculate</b> <b>Compute</b>	/ Do the number crunching and derive the correct answer? Make sure that you write down your workings and crosscheck your numbers. Candidates often underperform because of careless mistakes.
<b>Comment</b>	<b>Comment</b> is similar to <b>evaluate</b> in that you are required to make a judgment or provide your opinion based on the facts at hand. Professional judgment and scepticism (a questioning mind) are called for when <b>commenting</b> .
<b>Compare and Contrast</b>	<b>Compare</b> requires you to show how things are similar and/or different while <b>contrast</b> requires you to show how things are different or opposite. Even if you are asked just to <b>compare</b> , you must indicate both the similarities and differences.
<b>Conclude</b> <b>Draw conclusions</b>	/ Form a judgment, or determine the outcome, or resolve an issue, by using the facts presented. An example might be "Conclude whether to outsource the human resource function".
<b>Critically (analyse evaluate)</b>	/ <b>Critically</b> requires that your answer be more extensive than if you were asked to <b>analyse</b> or <b>evaluate</b> the data. Your answer must add a greater degree or level of accuracy, depth, knowledge, understanding, logic, questioning, reflection, and quality to your <b>analysis</b> or <b>evaluation</b> .  Remember, <b>critically</b> requires you to consider both the positive and negative points and <b>apply</b> professional scepticism (a questioning mind) in conjunction with professional judgment. Often when an examiner asks you to <b>critically evaluate</b> or <b>analyse</b> something it is because there can be more than one right answer, so you have to convincingly <b>defend</b> your opinion as part of your answer.
<b>Defend</b>	Whenever you see the word <b>defend</b> you <u>must</u> provide reasons for your answer, in other words, provide support for your argument or conclusion. If you fail to <b>justify</b> your answer, you will lose valuable marks. For example, " <b>Defend</b> your <b>advice</b> ."
<b>Define</b>	Like <b>list</b> , you are unlikely to be asked just to <b>define</b> a term, particularly in a professional accounting-related examination unless it is a term that requires you to communicate your understanding rather than copying down someone else's definition or rote learning. For instance, " <b>Define</b> in your own words ...".
<b>Demonstrate</b>	<b>Demonstrate</b> requires you to <b>prove</b> or <b>disprove</b> something beyond any doubt, or show that it applies in the situation described by giving evidence (for instance, provide an example). The evidence can be from the facts given or from your general knowledge and experience. <b>Demonstrate</b> and <b>illustrate</b> are similar.

Verb	Description
<b>Describe</b>	<b>Describe</b> requires you to provide the characteristics and features of an item or situation. For instance, “ <b>Describe</b> the audit procedures to verify ...” requires you to <b>state</b> the specific audit procedure/s that you would use without going into step-by-step <b>detail</b> of how to perform that procedure.
<b>Detail</b>	<b>Detail</b> requires you to give very specific instructions or <b>advice</b> . For instance, “ <b>Detail</b> the audit procedures to verify ...” requires you to provide step-by-step instructions. Another example is “ <b>Detail</b> how the findings from the site visit will affect the planning of the statutory audit”. This instruction requires you to <b>state</b> the positive and negative consequences in relation to the site visit and the planning of the audit. Don’t forget to think about the future and the past, not just the present when stating the consequences.
<b>Determine</b>	Ascertain or <b>conclude</b> after <b>analysis</b> and <b>evaluation</b> the most appropriate course of action or most correct answer from a range of viable alternatives.
<b>Discuss</b>	<p><b>Discuss</b> requires you to provide the 'for' and 'against' arguments, you cannot have a discussion without opposing views otherwise it would be just a conversation. If <b>discuss</b> is placed near the front of the instruction, then it requires you to provide an answer that is similar to <b>explain</b>, but addresses both the for and against arguments. For instance, “<b>Discuss</b> why numerical valuation is essential when buying or selling a small business”.</p> <p>However, if there is a statement and <b>discuss</b> is placed at the end, your answer <u>must be</u> in the form of <u>an essay</u> with the following elements:</p> <ul style="list-style-type: none"> <li>• An introduction, which declares whether you agree, disagree, partly agree, or partly disagree with the statement;</li> <li>• The body of your answer, stating: i) Why it is possible to agree <u>and</u> ii) why it is possible to disagree with the statement. You should provide examples to support both points of view; and</li> <li>• A conclusion that proves your original position.</li> </ul> <p>An example of a <b>discuss</b> question that requires an essay style answer would be “Numerical valuation is not essential when buying or selling a small business because the actual selling price is the outcome of negotiation. <b>Discuss</b>”.</p>
<b>Distinguish</b>	To note differences between. For instance, “ <b>Describe</b> what is meant by the term tax planning and <b>distinguish</b> it from tax evasion”. Apart from describing what tax planning involves (say 1-2 marks), you need to <b>explain</b> how the two terms are different and how they are similar. However, providing a list of differences and similarities is insufficient – complete sentences are essential to achieve full marks. In addition, it is important that you also mention any other relevant factors (e.g. the ethical and legal issues).

Verb	Description
<b>Evaluate</b>	Pass judgment on or provide your opinion based on the facts at hand. When making an <b>evaluation</b> , there are often predetermined criteria that you will use to base your opinion on. The key here is to give your opinion or make a judgment of the facts, but providing just a <b>description</b> of the facts is insufficient. Professional judgment and scepticism (a questioning mind) are called for when making an <b>evaluation</b> . <b>Examine</b> and <b>Evaluate</b> are interchangeable.
<b>Examine</b>	Pass judgment on or provide your opinion based on the facts at hand. When <b>examining</b> the facts given, there are often predetermined criteria that you will use to base your opinion on. The key here is to give your opinion or make a judgment of the facts, but providing just a <b>description</b> of the facts is insufficient. Professional judgment and scepticism (a questioning mind) are called for when making an <b>evaluation</b> . <b>Examine</b> and <b>Evaluate</b> are interchangeable.
<b>Explain</b>	As a Professional Accountant, you will be frequently called upon in your work to <b>explain</b> difficult concepts and technical issues to people who are not accounting trained. This is where your ability to share your knowledge using simple everyday terms will be most needed.  <b>Explain</b> requires you to write at least several sentences conveying how you have <b>analysed</b> the information in a way that a layperson can easily understand the concept or grasp the technical issue at hand. For instance, “ <b>Explain</b> whether an ‘emphasis of matter’ paragraph or an ‘other matter’ paragraph would be most appropriate in this situation”, or “ <b>Explain</b> how a partnership is assessed for tax”. <b>Evaluate</b> and <b>Examine</b> are interchangeable.
<b>Identify</b>	<b>Identify</b> is similar to <b>list</b> , but requires you to also provide an <b>explanation</b> as to why the item/s that you have <b>identified</b> is/are relevant to the facts given in the question.  Often <b>identify</b> will require you to select a specific issue or issues, but not all issues, so you need to look out for any qualifying words. For instance, “ <b>Identify</b> the <u>Board Matters</u> ...” is asking you to focus solely on issues that relate to Board Matters from the <i>Singapore Code of Corporate Governance</i> so if you digress and identify remuneration issues, you will not score well. Another example is “ <b>Identify</b> the companies that qualify as members of a group for the purposes of group tax relief”. In order to score well in this second example, you need to <b>identify</b> the companies and <b>state</b> why they are included in the group. You also need to <b>state</b> if a company is not included and why.
<b>Illustrate / Give examples</b>	<b>Illustrate</b> requires you to provide an example, either from the facts given, a real-life example, or a made-up example to <b>illustrate</b> the point you are trying to make. <b>Illustrate</b> and <b>Demonstrate</b> have similarities.
<b>In accordance with</b>	This instruction requires you to relate your answer back to a specific document. Failure to make specific mention of the document in your answer will result in a loss of marks.

Verb	Description
<b>Interpret</b>	Look at the whole as well as the individual parts and decide what the data (or diagram) is telling you. Remember, although <b>interpret</b> may involve some subjective assessment, some answers will be <u>more right</u> (or appropriate) than others.
<b>Justify</b>	Whenever you see the word <b>justify</b> you <u>must</u> provide reasons for your answer, in other words, provide support for your argument or conclusion. If you fail to <b>justify</b> your answer, you will lose valuable marks. <b>Justify</b> is similar to <b>defend</b> .
<b>List</b>	<b>Prepare</b> an itemised <b>list</b> . Although you are unlikely to be asked just for a <b>list</b> of items, it is important to remember that many of the common verbs used by examiners require you to begin with a mental list of issues to consider.
<b>Outline</b>	<b>Outline</b> requires you to provide a general overview of the situation and indicate the main features. <b>Outline</b> is used when the question is worth only a couple of marks, but a single sentence is usually never enough to achieve full marks.
<b>Plan</b>	<b>Prepare a detailed proposal</b> . For instance, in an assurance engagement, you may be asked to ' <b>Plan</b> a review of historical information'.
<b>Predict</b>	Suggest what may happen based on the available information. Remember, although <b>predicting</b> involves uncertainty, some answers will be <u>more right</u> (or appropriate) than others.
<b>Prepare</b>	<b>Prepare</b> requires you to produce your answer using a specific format. For instance, " <b>Prepare</b> the Statement of Cash Flows for ..." or " <b>Prepare</b> all the relevant journal entries for ...". Remember, a journal entry is only complete if it shows the date of the entry, the correct accounts, the correct amounts, and has a description (narration) – easy marks are often thrown away through carelessness. <b>Record</b> and <b>Prepare</b> have similarities.
<b>Prioritise</b>	Make a judgment about which items or factors should be given <b>priority</b> based on importance. For instance, when considering the severity and/or frequency of a risk, it is possible to categorise risks according to whether they have a low, medium, or high risk of occurring and appropriate resources can be deployed efficiently. <b>Rank</b> and <b>Prioritise</b> are interchangeable, and both terms have similarities with <b>Arrange</b> .
<b>Produce</b>	<b>Produce</b> requires you to present your answer in a specific format from scratch. For instance, you may be required to " <b>Produce</b> a Profit or Loss Statement".
<b>Propose/Provide</b>	Put forward (for example, a point of view, idea, argument, alternatives, etc.) for consideration or action. For instance, "Based on the facts of the case, <b>propose</b> the most tax-effective entity type ...", or " <b>Propose</b> audit adjusting entries to correct ...".
<b>Prove</b>	<b>Prove</b> requires you to establish that something is true by citing evidence or giving clear logical reasons. When you reconcile the Bank Account in the General Ledger you are <b>proving</b> that the account balance is correct.

Verb	Description
<b>Quantify</b>	Provide a <u>numerical value</u> (an exact calculation) or a <u>range of values</u> (upper/lower limits, average, likely values, etc.). For instance, “ <b>Quantify</b> the misstatement in the ‘investment in subsidiary’ in the Statement of Financial Position” or “ <b>Quantify</b> the adverse direct materials variance cost”. As with <b>calculate</b> and <b>compute</b> , you should always show your workings and crosscheck your numbers.
<b>Rank</b>	Make a judgment about which items or factors should be given priority based on importance. For instance, when considering the severity and/or frequency of a risk, it is possible to categorise risks according to whether they have a low, medium, or high risk of occurring and appropriate resources can be deployed efficiently. <b>Rank</b> and <b>Prioritise</b> are interchangeable, and both terms have similarities with <b>Arrange</b> .
<b>Record</b>	<b>Record</b> is similar to <b>prepare</b> in that you may need to perform a calculation and show the specific components in an appropriate format. For instance, “ <b>Record</b> the closing entries to transfer profit (or loss) to retained earnings”. <b>Record</b> and <b>Prepare</b> have similarities.
<b>Recognise</b>	<b>Recognise</b> requires you to <b>distinguish</b> between various components and to be able to <b>state</b> how each component should be treated. For instance, “... and indicate if the gain/loss is <b>recognised</b> as profit or loss or other comprehensive income”. <b>Identify</b> and <b>Recognise</b> have similarities.
<b>Recommend</b>	Make a statement about the most appropriate course of action. If there is more than one possible course of action, <b>state</b> which action you would choose and why ( <b>justify</b> your choice). Your professional judgment and your ability to <b>interpret</b> the wider situation are critical to scoring well in these types of questions. Don't forget to think about the future and the past, not just the present when making a <b>recommendation</b> .
<b>Reconcile / Reconciliation</b>	<b>Prove</b> that the balance of an account is correct. For instance, “ <b>Using</b> the data given, prepare a bank <b>reconciliation</b> ” requires you to <b>prove</b> that the bank balance in the General Ledger corresponds with the balance shown on the bank statement, listing down the timing differences (e.g. unpresented cheques) and errors (if any). Note here the term <u>Bank Reconciliation</u> , as this acts as a <u>qualifier</u> to indicate the format that you should use to present your answer.
<b>Respond / Reply</b>	This is your right of <b>reply</b> . When you are asked to <b>respond</b> , it is usually in <b>reply</b> to a comment made by someone else (although you can also be asked how you would <b>respond</b> in a particular situation). For instance, “ <b>Respond</b> to the Chairperson regarding her comment on impairment”. Whenever you are asked to <b>respond</b> , you must always <b>justify</b> your opinion or the actions you would take.
<b>State</b>	<b>State</b> is similar to <b>list</b> , but the items require your professional judgement. For instance, “ <b>State</b> any restrictions that apply”. One of the easiest ways to make sure that you <b>state</b> comprehensively is to think, “ <b>list and justify</b> ”. You will note that <b>state</b> appears in many of the verb descriptions given.

Verb	Description
<b>Summarise</b>	Provide a concise description. <b>Summarise</b> is similar to <b>describe</b> , but in a condensed format.
<b>To what extent</b>	This instruction requires you to advance arguments in favour of a position or point of view and <b>respond</b> to or take into consideration the opposing arguments or points of view. You must always <b>justify</b> your answer.
<b>Translate</b>	For the purposes of Singapore CA Qualification examinations, <b>translate</b> refers to the conversion of monetary values from one currency into another currency (although translate can refer to spoken and written language as well).
<b>Use / Using</b>	This instruction tells you the type of model that you must <b>use</b> when formulating your answer. For instance, " <b>Using</b> the <u>Discounted Cash Flow approach</u> , ..." tells you what valuation approach to use. Another common phrase is " <b>Using</b> the facts of the case, ...", which tells you that you must relate your answer to the specific facts given in the question scenario. Generic answers will not pass.
<b>With reference to</b>	This instruction requires you to relate your answer back to a specific document/s or set of facts. For instance, " <b>With reference to</b> relevant Singapore Financial Reporting Standards, <b>explain</b> the risk of material misstatements relating to ...". In this example, relevant <u>Singapore Financial Reporting Standards</u> acts as a qualifier ( <b>with reference to</b> 'what'). Failure to make specific mention of the document/s or facts in your answer will result in a substantial loss of marks.
